

Aueshah AI Concierge — Account Setup

Create 4 free accounts. Copy the credentials. Send them back.

1. Neon (Database)

- 1 Go to <https://neon.tech> and sign up (Google login works).
- 2 Project name: **aueshah-concierge**.
- 3 Region: London or Frankfurt.
- 4 On the dashboard, click **Connection Details**.
- 5 Copy the full connection string (starts with **postgresql://**).

[Send me: the connection string.](#)

2. Upstash (Redis)

- 1 Go to <https://upstash.com> and sign up.
- 2 Click **Create Database**.
- 3 Name: **aueshah-rate-limiter**. Region: EU-West-1 (Ireland).
- 4 Open the database, scroll to **Connect to your database**.
- 5 Copy the **Redis Connect URL** (starts with **redis://default:...**).

[Send me: the Redis URL.](#)

3. Qdrant (AI Knowledge Base)

- 1 Go to <https://cloud.qdrant.io> and sign up.
- 2 Click **Create Cluster**. Name: **aueshah-concierge**.
- 3 Choose **Free Tier**. Region: EU-West-1 (Ireland).
- 4 Open the cluster, go to **API Keys**, click **Create API Key**.
- 5 Copy the **Cluster URL** and the **API Key**.

[Send me: the Cluster URL and API Key.](#)

4. SendGrid (Email)

- 1 Go to <https://signup.sendgrid.com> and sign up on the **Free plan**.
- 2 Verify your email from the inbox link SendGrid sends you.
- 3 In the dashboard: **Settings** → **Sender Authentication** → **Single Sender Verification** → **Create New Sender**.
- 4 Fill the form using a real email you own (e.g. **concierge@aueshah.com**). Click **Create**.
- 5 Open the email SendGrid sends and click **Verify Single Sender**.
- 6 Go to **Settings** → **API Keys** → **Create API Key**. Name: **aueshah-concierge**. Permission: **Full Access**.

7 Copy the API key immediately (starts with **SG.**) — it is shown only once.

Send me: the API key and the verified sender email address.

Send Back — Checklist

- Neon connection string
- Upstash Redis URL
- Qdrant Cluster URL + API key
- SendGrid API key + verified sender email
- Concierge team email(s) for appointment / Noor alerts
